Acknowledgment

I would like to acknowledge my colleagues who helped me a lot, provided me with their own case photos, revised many sections, and offered some of the scientific material and data used in the preparation of this book especially:

- Amin Gohary, Head of Paediatric Surgery Dept., Al Noor Hospital, Abu Dhabi, UAE
- Sherif Shehata, Professor of Paediatric Surgery, Tanta University, Egypt
- Usama Al Nager, Professor of Paediatric Surgery, Ain Shams University, Egypt
- Rajesh Gupta, Associate Professor, Kaustubh Child Surgery Clinic
- Mrs. Jasmine Kwityn for her patience and effort in editing

About the Author

Prof. Mohamed Abdel Baky Fahmy, MD, FRCS, Professor of Pediatric Surgery, Al Azher University, Cairo, Egypt.

He graduated from Al Azher University and the Royal College of Surgeons of Edinburgh and trained in the field of pediatric surgery at Egypt and Manchester, UK.

He is the founder and chief of the pediatric surgery departments at Al Galae maternity and children's hospital and Al Zahrae University hospital and faculty of medicine for girls, Al Azher University, Cairo.

He had a wide experience for more than 25 years in the field of pediatric surgery with a special interest in pediatric urology, rare genitourinary anomalies, pediatric gynecology, and Hirschsprung's disease.

He is a member of the British Association of Pediatric Surgeons since June 1994 and of the World Association of Medical Editors (*WAME*), Global Rare Disease Registry (GRDR), and the American Association of Academic Surgery.

He was the secretary general of the Egyptian Pediatric Surgical Association “EPSA.”

He is a coeditor for many international journals: *Advances in Bioscience and Clinical Medicine*, *Annals of Pediatric Surgery*, *Medical Journal of Case report (Bio Med)*, *Medicine Journal* and *World Journal of Pediatrics*.

He had a wide range of international publications, and he is an innovator of operations and procedures in pediatric surgery and pediatric urology, with a special emphasis on his technique for continent urinary diversion for children with failed repair for bladder exstrophy, which was published in the *International Journal of Surgery* (2007).
